Junior in anthracite QPC lacquer to cope with tougher environments

KNOCK DOWN

Also available as model Knock-Down in zinc, ie in parts. This means that shipping costs can be kept down.

> JUNIOR TROLLEY

Over many years, this faithful servant has transported tons of loads. From heavy boxes of bananas to light parcels. Its flexible design of oval tubing in combination with its collapsible upper shelf makes it a highly popular favourite among transport trolleys.

The trolleys are delivered as standard galvanized, but can be ordered with QPC lacquer as an extra option. If you need a coin lock on the trolley, such obviously can be mounted.
