> BABYSAFE

Babysafe is a practical and simple holder for newborn car seats that makes the shopping experience simpler for customers who have a child with them in a newborn car seat.

It fits different sizes of newborn car seats and can be adapted to many different sizes of shopping trolleys, both new and existing, due to its adjustable fastening mechanism. Babysafe is easily fastened into the shopping trolley using 4 screws, and it is very stable and secure.

The customer places their newborn car seat in the babysafe basket and firmly locks the car seat in using the accompanying car seat belt, precisely in the same way as the newborn car seat is fastened in inside a car.
