

MATERIALINFORMATION CALIFORNIA TRAYS

California Trays tillverkas av material och färger som är godkända av Food and Drug Administration (FDA) i USA för material som kommer i direktkontakt med livsmedel. **För den europeiska marknaden finns motsvarande godkännande i form av Commission Regulation (EU) No 10/2011***

Traitech får vid varje ny leverans av California Trays automatiskt en förnyelse av FDA certifikatet för att säkerställa att produkten kontinuerligt lever upp till de högt ställda kraven för produkter som står i direktkontakt med livsmedel.

Det är Traitech's företagsfilosofi att alltid erbjuda produkter till dagligvaruhandeln som är kompatibla med FDA. Du kan vara säker på att alla California Traysprodukter som du får från Traitech är säkra att använda och är godkända för direktkontakt med livsmedel.

Traitech Industries Inc. använder endast FDA-godkända material och tillverkar produkten i en ren produktionsmiljö, så du kan alltid vara trygg med att färskvaror, frukt och grönt, deli och bagerivaror kan placeras direkt på California Trays utan behov av påsar eller underlag.

- Tillverkad av LDPE (Low Density Polyeten) och EVA (etylvinylacetat) som en gummering eller mjukgöringsmedel för att minska sprödhet.
- Detta material är FDA (Federal Food and Drug Administration) godkänt för direktkontakt med livsmedel.
- Färgämnet är också LDPE-baserad och godkänt för direktkontakt med livsmedel.

RE: Food and Drug Administration (FDA) Food Contact Regulation
Plaskolite Vivak® Copolyester Clear Sheet

To Whom It May Concern:

This product, as supplied by Plaskolite, complies with the compositional and inherent viscosity requirements of FCN 179. FCN 179 provides a wider range of conditions of use than 21 CFR 177.1315. Under FCN 179, this product may be used as films or articles or components of film or articles intended for contact with aqueous, acidic, low-alcohol (up to 13% by volume), an fatty foods under Conditions of Use C (hot filled or pasteurized above 150°F) through G (frozen storage - no thermal treatment in the container) as described in 21 CFR 176.170(c), Table 2.

Additionally, FCN 179 permits use in contact with foods containing alcohol up to 25% by volume under conditions of use E (room temperature filled and stored - no thermal treatment in container) through G (frozen storage - no thermal treatment in the container). Based on results from testing of representative polymers, we expect that articles made from Vivak® Copolyester Clear Sheet under good manufacturing practices will meet the requirements of FCN No. 179 at 21 CFR 177.1315(b)(1).

Please contact us at (614) 294-3281 if you have any questions related to this matter.

Sincerely,

Timothy W. Ling, P.E.
Environmental Engineer

TRAITECH DOC

Declaration of Compliance

Traitech Industries Inc. of Toronto, Ontario in Canada is the business operator that manufactures, markets, and distributes a system of products referred to California Trays®, a registered trademark of Traitech Industries Inc.

The product is manufactured using the materials as follows:

Low Density Polyethylene with slip agents
This is a food grade polyethylene that complies with USA FDA Regulation 21 CFR 177.1520 (Olefin Polymers), paragraph (c) 2.1. Reference:
<http://www.accessdata.fda.gov/scripts/cdrh/cdrtxt/CFRSearch.cfm?n=177.1520>

Black Masterbatch Colorant with a Low density polyethylene carrier
This is a food grade resin colorant that also complies with USA FDA Regulation 21 CFR 177.1520 (Olefin Polymers), paragraph (c) 2.1.

Certificates of analysis are received with each material delivery for the above.

There is no restriction as to type of food that these materials and/or the final finished product can come into contact with. Specifically, the California Trays product is intended for use with vegetables and fruits commonly referred to as produce. Additional uses include baked items, seafood items, and deli items. Foods mentioned are merchandised in the California trays in a retail store environment both at room temperature and in refrigerated cases.

California Trays have been in use since 1978 in selected international markets.
